ALL MEMBERS WITH HISTORY NOTES AND COMPLETE INFORMATION

The following names are first organized alphabetically by last name. Under the last name, individuals are organized chronologically. There are some uncertainties concerning the early dates. The first record book did not list the charter members and in some situations, the names did not appear in order in membership listings. There may be some discrepancies in 1819 dates. Also, some names of persons who were shown to be contributors in the 1860's subscription book do not appear in the second record book. Since a few pages are missing from the second record book, names of the aforementioned contributors are listed with a (1866) designation. In the following, if nothing is written by the date, the members joined by obedience and baptism.
